

AluminiumLadder –
lightweight, stylish & strong

The Rhino AluminiumLadder combines strength and style, to provide one of the most aesthetically pleasing roof access products available for commercial vehicles. By utilising highly robust aluminium hand rails and glass filled nylon rungs, the AluminiumLadder offers an extremely lightweight solution. The AluminiumLadder is available in 6, 7 and 8 rung configurations with bespoke fitting kits to suit a variety of popular commercial vehicles.

30 - 45 mins
assembly time

DIMENSIONS

Part Code	L1	W1	D1
AL6 (6 rung ladder)	1445mm	313mm	77mm
AL7 (7 rung ladder)	1719mm	313mm	77mm
AL8 (8 rung ladder)	1993mm	313mm	77mm

ULTRA LIGHTWEIGHT DESIGN

Our team of inhouse engineers have designed the AluminiumLadder to be as lightweight as possible, without losing any of its strength. Each model is more than 50% lighter than Rhino's old steel ladders*, and has been rigorously tested to a safe working load of 120kg per ladder both at our inhouse test facility and via professional external accreditation bodies.

*note this excludes the fitting kit weights which may vary.

Part Code	Weight
AL6 (6 rung ladder)	2.15kg
AL7 (7 rung ladder)	2.53kg
AL8 (8 rung ladder)	3.05kg
